

# II Congreso Nacional de Arteterapia FEAPA

Mirada interna, realidad externa

Madrid, 30th January 2013

FEAPA (the Spanish Federation of Professional Associations in Art Therapy) is holding their second National Art Therapy Congress on 3rd, 4th and 5th May 2013, entitled *Looking Within, External Realities*. The Congress will take place at the Buero Vallejo Theatre and the Cultural Centre Miguel Ángel Blanco in Alcorcón, Madrid.

Through this second Congress, the FEAPA intends to demonstrate the achievements of the last three years in the growth, development, and the increasing professionalisation of Art Therapy in Spain.

The Congress offers the opportunity for Art Therapists, those who are currently training in Art Therapy, and professionals from related disciplines to meet, exchange ideas and share professional experience.

The Congress will offer 22 workshops, 6 Conferences, 4 round tables and 28 talks related to Art Therapy. The following areas will be included: Education; Social work; Physical and Mental Healthcare; Personal Development; Clinical and Doctoral Investigation; Supervision and Personal Therapy; Continual Professional Development; Therapeutic Approaches and the Therapeutic Setting. All of these themes are central in the practise of our profession and its provision of support. In the current difficult situation throughout our country, people need, more than ever, all the resources, abilities and creativity Art Therapy can generate.

We firmly believe the potential of Art Therapy is increasingly accepted and valued as making a rich contribution within multidisciplinary teams in both the public and the private sectors. For this reason we want to take the opportunity to show the work that is being done and encourage the exchange of experiences, expanding our knowledge in order to consolidate growth.

The Organisational Committee for the Congress is proud to invite you to attend this event, which has grown from the enthusiasm and conviction of our fellow professionals.
